Say Goodbye to conventional Staircases

Stairs are used in lieu of elevators in buildings or houses and also play a very important role as emergency exit areas in office buildings and commercial spaces. Until today, staircases were built using marbles and granite, which are expensive, require on - site cutting and finishing, leading to a lot of wastage. They need a lot of manual labour for handling and fixing. Besides, they can stain easily, the surface may be slippery and they can chip or crack during use. They are difficult to replace with same shade and texture if broken, besides also needing constant maintenance.

Get the Johnson Endura Stepping Stone Advantage!

The Johnson Endura Stepping Stone range is a revolutionary way to build staircases with step tiles and risers. The result of an unquantifiable amount of time spent researching the very many possibilities in the world of staircases. At the center of this research, we kept people and a few important questions concerning them -

- “Will it be safe enough for senior citizens and children to use?”
- “Are they safe for use by people with physical and visual disabilities?”
- “How long would they last before needing a replacement?”
- “Should durable mean cumbersome installation and frequent maintenance?”
- “Are they easy to install, without any cumbersome cutting and finishing or wastage?”
- “Are they non - combustible and safe during a fire emergency?”

Frequently Asked Questions

1) Why Endura Stepping Stone?

Staircases hitherto have been at mercy of natural stones, which are cumbersome to install, slippery, and also come with a higher installation wage-cost. Endura Stepping Stone is that much-required revolution in the world of staircases, that comes with none of the above mentioned complications. Moreover their convenient size **30x120x1.5 cm, 30x95x1.2 cm & 31x152x1.2 cm** with bull nosing and tread lines aptly meet the design requirements for staircases along with **60x120x1.5 cm, 60x95x1.2 cm & 62x152x1.2 cm** in matching colour for risers and landing areas.

2) What differentiates Endura Stepping Stone from others?

Safety and confidence are the cornerstones of Stepping Stone. They are full-bodied vitrified tiles with robust strength, antiskid and stain resistant surface providing highest durability. They're designed to help people including persons with ambulant disabilities and persons with visual impairment to negotiate steps and staircases safely and confidently.

3) What are the benefits of bull nose edges?

Endura Stepping Stone is India's first bull nosed fully vitrified step tile. The unique bull nosing makes the staircase safer and comfortable to step on. Bull nosing also helps to prevent chipping along edges and it improves the overall aesthetics of the staircase.

4) What is the purpose of embossed tread lines?

The embossed tread lines provide extra grip for higher safety for the crucial edges of the steps.

5) What are the benefits of thicker tiles?

The Endura Stepping Stone is **1.2 cm & 1.5cm thick**, which means it's stronger - a mandate for large-sized slabs. Thereby, being a safe, confident and assuring replacement to natural stones.

6) What are the other benefits of using Endura Stepping Stone?

Easy and speedy installation, low water absorption (<0.05%) with advanced stain resistance technology. Even strongest of dyes - methylene blue - cannot stain Endura Stepping Stone. High abrasion resistance of <120m³ provides 10 times superior surface protection over natural stone against regular wear & tear.

7) What is the best way to fix Endura Stepping Stone?

Endura Stepping Stone are best fixed using ARDEX ENDURA tile fixing adhesive. The gap between the tiles can be filled with ARDEX ENDURA grouts. ARDEX ENDURA tile fixing adhesives and grouts are available in India and are most compatible with Endura tiles.

8) What are the designs available?

Subtle salt & pepper designs, Plain colors and Granite & Marble variants to evenly compliment the theme and decor of the building.

9) Does Endura Stepping Stone conform to National Building Codes?

Yes, Endura Stepping Stone conforms to National Building Code SP : 7 of the Bureau of Indian Standards.

10) Is Endura Stepping Stone a fire resistant material? Is it suitable for fire exits in the case of an emergency?

Yes, Endura Stepping Stone is a fire-proof, non-combustible, high temperature material. It will not burn or release any toxic fumes in the event of any fire.

Recommended Stair Step Dimensions as per National Building Code, BIS , SP : 7

Type of Building	Minimum Width	Minimum Tread	Maximum Riser
Residential buildings	100 cm	25 cm	19 cm
Residential hotel buildings	150 cm	30 cm	15 cm
Assembly buildings like auditoria, theatres and cinemas	200 cm	30 cm	15 cm
Educational building	150 cm	30 cm	15 cm
Institutional buildings	200 cm	30 cm	15 cm
All other buildings	150 cm	30 cm	15 cm
2 storeyed - LIG Urban Areas	60 cm	22.5 cm	20 cm
3 or more storeyed - LIG Urban Areas	75 cm	25 cm	20 cm

Note:

Straight flights of steps are preferred by ambulant disabled people. Steps should be of a consistent height and depth throughout the stair. Stairs shall be constructed of non-combustible materials throughout.
